

# yo-tub frozen yogurt maker INSTRUCTIONS

**CAUTION:** Always check for leaks before freezing, avoid puncturing. The refrigerant liquid is non-toxic, however in the event a leak or puncture occurs, cease use and discard.

- Do not overfill.
- Only use ingredients that are chilled. Hot ingredients will not give you a good result. (Ingredients higher than 60°C / 140°F could damage your product)

## HOW TO MAKE THE BEST FROZEN YOGURT!

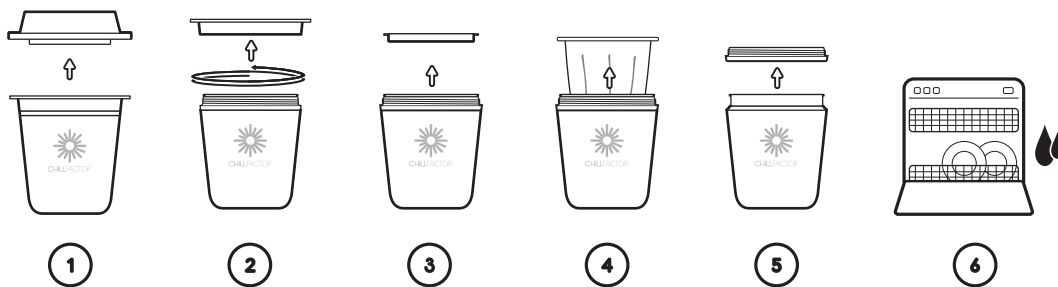

- Remove the CHILLFACTOR™ FROZEN YOGURT MAKER from its packaging and follow the cleaning instructions. Then place upright in the freezer.
- After 4 - 6 hours at -10°C / 14°F ensure the walls of the CHILLFACTOR™ FROZEN YOGURT MAKER are frozen, and then click the lid onto the top collar. If the walls are not frozen, then try overnight. (You may need to lower the temperature of your freezer)
- Pour in your favorite chilled yogurt to the point where the cooling pack meets the washer. (250-300ml)
- Once you have poured in your yogurt, squeeze the cup for two minutes.
- When two minutes is up, stir the yogurt for one minute, ensuring you are scraping the frozen yogurt off the walls of the cooling pack.
- Now squeeze for a few more seconds and then let the yogurt set for 2 minutes. (The longer you let the yogurt set, the firmer it will become.)
- Remove the lid and enjoy your FROZEN YOGURT!

## HOW TO CLEAN YO-TUB!

- Unclip and lift the lid.
- Unscrew and lift the top collar.
- Remove the washer.
- Remove the cooling pack.
- Remove the bottom collar.
- The lid, top collar, washer, bottom collar and spoon are top-rack dishwasher safe. The cup and the cooling pack are hand washable only.

### CARE INSTRUCTIONS

- Don't pierce the cup or its cooling pack with any sharp object. Only use the plastic spoon to consume your slushy.
- For optimum performance and longevity, after using we recommend always storing the cooling pack of the Chill Factor product in the freezer unit of your refrigerator.
- Be sure to wash the CHILLFACTOR™ FROZEN YOGURT MAKER before every use.
- The lid, top collar, washer, bottom collar and spoon are top-rack dishwasher safe.
- The cup and the cooling pack are hand washable only.
- This product is only suitable for exposure to temperatures in the range of -25°C to +60°C
- CAUTION! ONLY USE COLD OR WARM WATER TO CLEAN THE COOLING PACK.**
