

drink chillers
ice cubes
INSTRUCTIONS

**HOW TO CHILL
YOUR DRINK!**

- Don't pierce the ice cubes.
- For optimum performance and longevity, after use we recommend always storing the ice cubes in the freezer unit of your refrigerator.
- Be sure to wash the CHILLFACTOR™ DRINK CHILLERS before every use. (It is best to use warm soapy water when cleaning the ice cubes)
- The ice cubes are hand washable only.
- This product is only suitable for exposure to temperatures in the range of -25°C to +60°C
- CAUTION: Always check for leaks before freezing, Avoid puncturing. The refrigerant liquid is non-toxic, however in the event a leak or puncture occurs, cease use and discard.
- Only use drinks that are chilled or at room temperature. Hot drinks will not give the desired result. (Ingredients higher than 60°C / 140°F could damage your product)

- 1 Remove the CHILLFACTOR™ DRINK CHILLERS from the packaging, clean them with warm soapy water. Then place in the freezer.
- 2 After 4 - 6 hours at -10°C / 14°F ensure the walls of the DRINK CHILLERS are frozen. If not, then try overnight. (You may need to lower the temperature of your freezer)
Once removed from the freezer, place into a vessel and pour in your favorite drink.
- 3 Stir your drink for at least 15 seconds to start chilling and enjoy! (Keep stirring if you want to chill your drink more)
