

CHILLFACTOR™ squeeze 'n flip jelly maker

INSTRUCTIONS

HOW TO MAKE THE BEST JELLY!

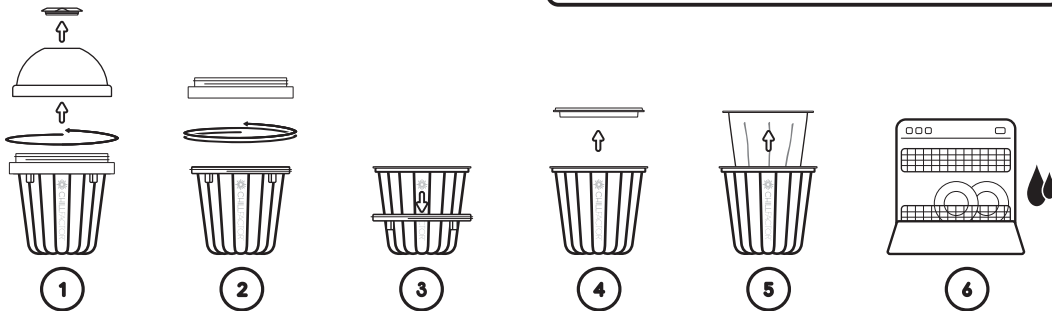

- CAUTION: Always check for leaks before freezing, avoid puncturing. The refrigerant liquid is non-toxic, however in the event a leak or puncture occurs, cease use and discard.
- Do not overfill.
- Do not use hot - boiling ingredients. (Ingredients higher than 60°C / 140°F could damage your product)
- **IMPORTANT! ADULT SUPERVISION REQUIRED TO PREPARE THE JELLY MIXTURE.**

- 1 Remove the CHILLFACTOR™ JELLY MAKER from its packaging and follow the cleaning instructions. Then place upright in the freezer without the cap and lid. After 4 - 6 hours at -10°C / 14°F ensure the walls of the CHILLFACTOR™ JELLY MAKER are frozen. If not, then try overnight. (You may need to lower the temperature of your freezer)
- 2 **(IMPORTANT! ADULT SUPERVISION REQUIRED TO PREPARE THE JELLY MIXTURE.)**
Make your jelly mixture. Use either jelly cubes or jelly powder sachets:
 1. For jelly mixtures that require a couple of hours to set (this applies to most standard jelly cubes/powders available in supermarkets)
Use half the recommended amounts of boiling and cold water to create your jelly mixture (most packs advise 250ml of each so use 125ml of each)
 2. For any quick set jelly mixtures
Use the full recommended amounts of water as directed on pack.
- 3 Once you have poured the mix, screw the lid on, ensuring the cap is off and then squeeze for 3 to 3.5 minutes.
- 4 After squeezing for this time, you should notice the jelly has almost set. Now place the cap on the Jelly Maker and flip it over, leaving it to set for at least 1 minute. (The longer you leave it the firmer the jelly will become)
- 5 Unscrew and detach the body from the lid of the Jelly Maker.
- 6 Enjoy your Jelly!

HOW TO CLEAN YOUR JELLY MAKER!

- 1 Unscrew and detach the lid and remove the cap.
- 2 Unscrew and detach the top collar.
- 3 Remove the bottom collar.
- 4 Remove the washer.
- 5 Remove the cooling pack.
- 6 The lid, top collar, bottom collar and washer are top-rack dishwasher safe. The silicone cup, cooling pack and cap are hand washable only.

CARE INSTRUCTIONS

- Don't pierce the silicone cup or its cooling pack with any sharp object. Only use the plastic spoon to consume your jelly.
- For optimum performance and longevity, after using we recommend always storing the cooling pack of the Chill Factor product in the freezer unit of your refrigerator.
- Be sure to wash the CHILLFACTOR™ JELLY MAKER after every use.
- The lid, top collar, bottom collar and washer are top-rack dishwasher safe.
- The silicone cup, cooling pack and cap are hand washable only.
- This product is only suitable for exposure to temperatures in the range of -25°C to +60°C
- **CAUTION! ONLY USE COLD OR WARM WATER TO CLEAN THE COOLING PACK.**
